LEDWL-360-M-A

Amber LED 360 Degree Indicator Light - 20 LEDs - Battery Powered - Magnetic Base - Steady Burn

Product ID: 153836

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDWL-360-M-A Amber Steady Burn LED Indicator Light

Lamp Type: LED
Dimensions: 5" - Diameter 4 1/2" - Height
Weight: 1 lbs
Power: (4) AA Batteries
Battery Runtime: 94 Hours
Wiring: None - Battery Powered
Lighting Configuration: Steady Burn
Mounting: Magnetic Mount

Features:

Compact & 100% Portable
Waterproof / Shock Resistant
Battery Powered
94 Hours Continuous Runtime
Steady Burn Configuration

The LEDWL-360-M-A from Larson Electronics is a 360 Degree Magnetically Mounted Steady Burn LED Indicator Light that is battery powered and provides up to 94 hours of continuous operation on a single set of 4 AA batteries. This LED indicator light is 100% portable, has a magnet mount base, and provides a highly effective alternative to beacons that require wiring and special permanent mounting.

This steady burn compact LED light contains a 20 LED lamp assembly that produces a brilliant signal visible for extended distances. This LED beacon is amber in color and is 100% portable, with a magnetic mount and battery operation that allows it to be operated wherever a powerful light is needed. With

no need for wiring or external power sources, this light is ideal for applications where a signal light is needed on an occasional or temporary basis such as farm equipment, warehouse equipment, cars or trucks.
LED Benefits: Unlike gas burning and arc type lamps that have glass bulbs, LEDs have no filaments or fragile housings to break during operation and/or transportation. Instead of heating a small filament or using a combination of gases to produce light, light emitting diodes (LEDs) use semi-conductive materials that illuminate when electric current is applied, providing instant illumination with no warm up or cool down time before re-striking. Because there is no warm up period, this light can be cycled on and off with no reduction in lamp life.
LED lights run at significantly cooler temperatures than traditional metal halide and high pressure sodium lights and contain no harmful gases, vapors, or mercury, making them both safer and more energy efficient. No extra energy is wasted in cooling enclosed work areas due to external heat emissions from bulb type lights, and the operator risks associated with traditional lighting methods, such as accidental burns and exposure to hazardous substances contained in the glass bulbs, are eliminated. In addition, LEDs are also safer for the environment as they are 100% recyclable, which eliminates the need for costly special disposal services required with traditional gas burning and arc type lamps.

The LEDWL-360-M-A steady burn LED indicator light is durably built and resistant to shocks and vibrations. The durable housing and lens is designed to provide high strength and a small size, allowing easy placement in tight spaces. Dimensions for the lamp assembly are 5 inches in diameter by 4 1/2 inches high. This light runs continuously for up to 94 hours on a single set of four AA batteries. The durability, portability, and power of this LED make it ideal for towing, forklifts, cranes, trailers, security, warehouses, and anywhere a simple indicator light solution with plenty of power is needed.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
