

MGP-208Y.120V-100MB-3PH-20X5.20A

Portable Power Distribution Panel - 208Y/120V 3PH Input - 100A MCB - (20) 120V Duplex GFCI

Product ID: 154307

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MGP-208Y.120V-100MB-3PH-20X5.20A Portable Breaker Panel

Line In: 20` #4-4c/3w Type W Cord

System Voltage: 208Y/120V

Panel: 100A 3PH Main Circuit Breaker N3R

Breakers: (20) 20A 1P 125V

Outlets: (20) Duplex 520R-GFCI [20A, 125V]

Max OCP: 100A @ 208V

Form Factor: Powder Coated Steel Dolly Cart w/ Run Flat Tires

Dimensions: 24"L x 18"W x 52"H

Weight: 65 lb

Larson Electronics manufacture a wide variety of custom power distribution systems. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to being custom builds. The specifics for this configuration are listed in the specification table and one-line diagram.

The MGP-208Y.120V-100MB-3PH-20X5.20A from Larson Electronics is a Portable Breaker Panel that offers operators a three-phase voltage of 208Y/120V and a 100 amp main circuit breaker. This power distribution system provides operators the ability to safely tap into power from a variety of sources including generators and direct grid power. This portable breaker panel is suitable for outdoor applications.

***PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER**

DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS*

The MGP-208Y.120V-100MB-3PH-20X5.20A portable power distribution panel provides a safe and reliable way for operators in industrial settings to tap into and utilize power sources independently of the work area. This unit provides an effective power distribution system for operators performing plant turnarounds, maintenance and cleaning in hazardous areas, equipment installations and repairs, and any activities requiring an alternative to native power sources.

This portable breaker panel is designed to operate with 208Y/120V three phase voltage. The power distribution on this portable panel runs 208Y/120V three phase through a 100 amp main circuit breaker panel. A total of twenty 20-amp, 1-pole, 125V breakers protecting twenty 125V duplex GFCI receptacles can be used to power 120V equipment.

Wiring: Twenty feet of #4-4c/3w Type W cord is available for feeding power into the main circuit breaker panel.

Power: The main load center is protected by a 100-amp load center with included breakers for circuit protection. The load center is mounted within the NEMA 3R enclosure.

The transformer and load center/distribution assembly is mounted to a standard upright steel dolly cart style frame, resulting in an extremely stable, durable, and mobile power distribution platform. Two run-flat tires and a cart style mounting platform provides easier substation mobility. This temporary power distribution solution can be modified to meet the needs of job-site receptacle requirements. Units are available up to 150kva and can be equipped with skids or trailer mounted.

Applications: This power distribution system is NEMA 3R rated and ideal for indoor/outdoor use and applications including but not limited to; construction sites, plant maintenance, plant turnarounds, hazardous location operations, shows, exhibits, and shipyard operations.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
