GAU-NIL-175K-115V

High Intensity Gas Infrared Heater - Natural Gas - 115V 1PH 60 Hz - 175K BTUs - Indoor Use - Linear

Product ID: 154688

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

GAU-NIL-175K-115V Linear Heater

Unit Type: Gas Infrared Heater

Dimensions: -

Weight: 40 lbs

Voltage: 115V 60 Hz

Phase: Single

BTUs: 175,000

Fuel Type: Natural Gas

Heat Pattern: Linear

Nameplate Amps: 6A

Materials: -

Mount: Fixed/Surface Mount

Color: Metallic

The Larson Electronics GAU-NIL-175K-115V High Intensity Gas Infrared Heater is a powerful heating solution for indoor facilities. This metallic unit provides 175,000 BTUs of heat output and operates with 115V single phase 60 Hz. Supported by natural gas, the heater contains a linear lens for focused heating applications.

The GAU-NIL-175K-115V is a gas infrared heater for indoor locations. Compatible with 115V single phase 60 Hz, the compact heater offers 175,000 BTUs of heat output. This unit consumes natural gas, which is used to generate heat. The heat produced inside the heater is pushed out as infrared energy. A linear infrared lens facilitates accurate, directional heating. Compared to convection heaters that warm the air, infrared models are efficient and capable of warming objects.
This unit is recommended for indoor use. The GAU-NIL-175K-115V should not be used with speed-control equipment and VFDs. This natural gas heater can be mounted permanently on surfaces or walls.
Applications: Construction sites, warehouses, commercial spaces, industrial buildings, schools, indoor facilities, barns and more.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
