1500 Watt Work Light On Telescoping 8 Foot Tripod With Removable Light Head

Product ID: 1945

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

1500 Watt Work Area Light runs on 120 volts.
8 foot telescoping metal tripod with adjustable legs that can be leveled on uneven surfaces.
Two headed lamp systems. Each lamp contains a 250 watt halogen and 500 watt halogen bulb. Each light head is equipped with a switch. The two switches enables the operator to select various levels of light output including: 250 watts, 500 watts, 750 watts, 1000 watts, 1250 watts and 1500 watts. Thus, the operator can select the settings that provide the right amount of the lighting for the space and type of project.

The light rack is removable and has smaller floor supports, so that the rack can be used as a smaller, portable fixture.
The legs are collapsible which make the unit easier to store, deploy, and transport.
Tempered glass lenses with metal safety grill.
Durable powder coat finish.
66,000 total lumens.
Cord: 16/3, with 10 foot length terminated with typical US type straight blade plug
Weight: 35 pounds
