
**50 foot wiring harness for Golight 3020, 3021 and 3026 wired remote control Golight Strykers
GL-302X-50**

50 foot harness for Golight 3020, Golight 3021 and Golight 3026 remote control Stryker spotlights with wired controllers. The Golight Strykers in the 302X range come stock with a 20 foot wire harness that connects the surface mount joystick controller with the motorized Golight Stryker. This 50 foot harness is necessary when the distance between the dash mount controller and the Golight Stryker is greater than 20 feet, but less than 50 feet.
