

LEDWL-SCM-R1-WHT

Battery Powered LED Stern Light - (4) AA Batteries - Suction Cup/Permanent Surface Mount

Product ID: 222549

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDWL-SCM-R1-WHT LED Stern Light

Listing: -

Lamp Technology: LED

Dimensions: 12" x 7"x 3"

Weight: 11.2 oz

Lamp Quantity: -

Voltage: -

Frequency: -

Total Watts: -

Total Lumens: -

Luminous Efficacy: -

Lamp Life: 100,000+ Hours

Light Color: White

Color Rendering Index: -

Lamp Type: -

Lamp Base: -

Replacement Lamp: -

Beam Configuration: 360°

Power Efficiency: -

Power Factor: -

Quick Summary

Sealed Heavy-duty On/Off Switch

Removable Lamp Carriage Assembly

Amperage: -

Ambient Temperature Range: -

Temp Rating: -

Housing Material: -

Hardware Material: Shock Resistant Neoprene Accents, Insert Molded Brass Threaded Mounting Bushings

Lens Material: -

Mounting: Suction Cup or Surface Vertical/Horizontal

Batteries: (4) AA - Not Included

Housing Color: White

The Larson Electronics LEDWL-SCM-R1-WHT Battery Powered LED Stern Light provides visual signaling on boats and marine locations. Powered by four AA batteries (not included), the LED light is supported by a powerful suction cup for temporary mounting. Operators may also permanently mount the LED lamp on flat surfaces, in vertical or horizontal positions.

The LEDWL-SCM-R1-WHT is a compact lighting solution for boats and locations requiring temporary illumination. This battery-powered device operates on four AA batteries (not included). During use, the LED light emits a white beam with 360° visibility. The LED lamp features a sealed, heavy-duty on/off switch and a removable lamp carriage assembly. Molded one-piece white body construction ensures durability in outdoor locations.

This LED stern light is equipped with shock resistant neoprene accents and insert molded brass threaded mounting bushings.

LED Benefits: Unlike gas burning and arc type lamps that have glass bulbs, LEDs have no filaments or fragile housings to break during operation and/or transportation. Instead of heating a small filament or using a combination of gases to produce light, light emitting diodes (LEDs) use semi-conductive materials that illuminate when electric current is applied, providing instant illumination with no warm up or cool down time before re-striking. Because there is no warm up period, this light can be cycled on and off with no reduction in lamp life.

LED lights run at significantly cooler temperatures than traditional metal halide and high pressure sodium lights and contain no harmful gases, vapors, or mercury, making them both safer and more energy efficient. No extra energy is wasted in cooling enclosed work areas due to external heat emissions from bulb type lights, and the operator risks associated with traditional lighting methods, such as accidental burns and exposure to hazardous substances contained in the glass bulbs, are eliminated.

Mounting: This unit is equipped with a powerful suction cup at the bottom of the light, which can be used for temporary mounting applications. Permanent mounting is also possible via a female threaded opening at the bottom and side of the LED lamp for vertical or horizontal positions.

Applications: Boat light, stern light, marine lighting, boats, vessels, kayaks, signaling, safety lighting, outdoor illumination and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
