

WAL-TL-2X12W-C-WR-SOL-SP3100

Replacement Remote for WAL-TL-2X12W-C-WR-SOL Unit

Product ID: 236851

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Handheld replacement remote control for WAL-TL-2X12W-C-WR-SOL.

This remote control spotlight is based on radio waves, not infrared (like your garage remote). As such, the remote controls are effective to 150 feet.

The handheld remote control is weather resistant.

Powered by 2 MN-21 batteries, which are included and last approximately 1 year, the unit has a series of dip switches. The dip switches enable the user to select one of 65,000 channels to communicate with a specific remote control spotlight.

This handheld remote control features an on/off button, a fast/slow selector and 4 directional buttons. The motorized remote control spotlight will move in a direction as long as the button is depressed. Once released, the remote control spotlight will hold that position.
