

WAL-TL-2X12W-C-WR-SP3100

Replacement Remote for WAL-TL-2X12W-C-WR Unit

Product ID: 242438

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The Larson Electronics WAL-TL-2X12W-C-WR-SP3100 is a handheld remote control replacement for the WAL-TL-2X12W-C-WR. This wireless device is battery powered and offers a range of 150 feet. Two, MN-21 batteries are included with the weather resistant unit.

The WAL-TL-2X12W-C-WR-SP3100 is based on radio waves, not infrared (like conventional garage remotes). As such, the remote control is effective to 150 feet. This weather resistant unit features a series of dip switches. The dip switches enable the user to select one of 65,000 channels to communicate with a specific light. This handheld remote control features an on/off button, a fast/slow selector and 4 directional buttons. The motorized remote control light will move in a direction as long as the button is depressed. Once released, the remote control light will hold that position.

Batteries: The WAL-TL-2X12W-C-WR-SP3100 is powered by 2 MN-21 batteries, which are included and last approximately 1 year.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
