EPV-PN-55G-85CFM-0.5IN-40D

Explosion Proof Vacuum - 55 Gal Capacity - Certified HEPA Filter - 85 CFM Required - 40' Hose

Product ID: 242835

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The Larson Electronics EPV-PN-55G-85CFM-0.5IN-40D is an Explosion Proof Vacuum for flammable environments and industrial applications. This 55-gallon unit features an anti-static hose, 18 gauge steel drum and a swivel caster base for seamless portability. The certified HEPA explosion proof vacuum is equipped with a 3/4" x 20` anti-static air line for power.

The EPV-PN-55G-85CFM-0.5IN-40D is a certified HEPA vacuum designed for Class I, Divisions 1 & 2 and Class II, Divisions 1 & 2 environments. This unit features a 55-gallon capacity tank with 85 required CFM during use. The explosion proof vacuum is equipped with an anti-static 1/2" x 40` hose and an external grounding wire for protection. A 3/4" x 20` anti-static air line is provided for powering the unit.

The EPV-PN-55G-85CFM-0.5IN-40D features an 18-gauge steel drum. The explosion proof tank is equipped with a swivel caster base for portable and seamless transportation around the work site.
