EXC-22F-GFCI-3X-15A-1523

22' 12/3 SOOW Linecord with 3 GFCI Protected Outlets - 15 Amp Max Rated - Explosion Proof Plug

Product ID: 264744

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

EXC-22F-GFCI-3X-15A-1523 - 22' GFCI Protected Linecord w/ EXP Plug

Male Cord Cap: 5-15P - Explosion Proof
Female Receptacles: (3) 5-15R
Voltage Rating: 120 V
Max Amp Rating: 15 A
Cable Type: 12/3 SOOW
Cable Length: 22'
Weight: ~5 lb

C1D1 15 A Male Cord Cap

Made in the USA

The Larson Electronics EXC-22F-GFCI-3X-15A-1523 22` SOOW linecord with three GFCI duplex outlets is designed for heavy duty and outdoor applications. This rugged three outlet extension cord is constructed of 22` 12-gauge 3-conductor wire, equipped with a 15-amp rated explosion proof 5-15 male cord cap, inline GFCI, three 5-15R outlets, and allows operators to provide ground fault protection within hazardous locations.
The EXC-22F-GFCI-3X-15A-1523 linecord provides a safe and effective way for operators to power a variety of general use devices within a hazardous location with a hot permit. 22` of chemical and abrasion resistant flexible 12/3 SOOW cord terminated in male NEMA 5-15, 15 amp rated, explosion proof cord cap. An inline

GFCI and three female 5-15R connectors provides ground fault protection from explosion proof receptacles that do not provide GFCI protection. The EXC-22F-GFCI-3X-15A-1523 consists of a 20.66` line-in cable, a 7" GFCI, and a 9" line-out cable for a total length of 22` from end to end.

Applications: This GFCI protected linecord system is ideal for indoor or outdoor use and applications including but not limited to aircraft maintenance, alcohol processing, aerospace, chemical manufacturing, coke processing, cold storage, compressed natural gas (CNG) facilities, cranes, cryogenics, distilleries, food processing, fuel storage, gas processing plants, grain processing, laboratories, liquefied natural gas (LNG) facilities, liquid propane gas (LPG), manufacturing, marine vessels, methane production, mining, offshore, oil drilling rigs, oil refineries, paint spray booths, paper processing, petrochemical, pharmaceuticals, power plants, production refineries, sand blast cabinets, sewage and septic tanks, shipyards, solvent and cleaning areas, storage facilities, tank farms, tankers, textile, washdown areas, waste treatment plants, and woodworking. These industrial extensor cords are popularly used in hazardous locations when hot work permits have been acquired. We also offer class rated extension cords for use within explosion proof and hazardous location environments without hot work permits.

Larson Electronics is a manufacturer and as such can build extension cords and portable transformer systems to your specifications. Although we carry several models of power distribution transformers, we can deliver custom ordered units almost as quickly as our prebuilt units If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
