

WAL-TBL-AH-SW-LED-PAR36-M1-1224

Rotating LED Light - 12-48V DC - PAR36 LED, Floodlight - Toggle Switch

Product ID: 266935

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

WAL-TBL-AH-SW-LED-PAR36-M1-1224 Rotating LED Light

Lamp Technology: LED

Dimensions: -

Weight: -

Voltage: 12-48V DC

Watts: -

Candlepower: 7500

Luminous Efficacy: -

Expected Lifespan: 50,000+ Hours

Color Temperature: -

CRI: -

Lamp Type: PAR 36

Lamp Base: -

Replacement Lamp: -

Beam Angle: -

Light Configuration: Flood

Power Efficiency: -

Switch: 3A, Toggle Switch

Ambient Operating Temp Range: -

Housing Material: Powder Coated Aluminum

Mounting: Surface/Vehicle

Rotation: Vertical and Horizontal

The Larson Electronics WAL-TBL-AH-SW-LED-PAR36-M1-1224 Rotating LED Light is a durable lighting solution for vehicles, trucks and outdoor sites. This floodlight rotates in both horizontal and vertical directions. Compatible with 12-48V DC, the LED lamp provides 7,500 candlepower of output during operation.

The WAL-TBL-AH-SW-LED-PAR36-M1-1224 offers powerful illumination for outdoor locations and activities. This LED light operates on 12-48V DC. Equipped with a 3-amp toggle switch, the unit emits a 7,500 candlepower beam of light in floodlight configuration. This vehicle light is protected by a powder coated aluminum housing and comes with one abrasion resistant lead wire for body grounding.

LED Benefits: Unlike gas burning and arc type lamps that have glass bulbs, LEDs have no filaments or fragile housings to break during operation and/or transportation. Instead of heating a small filament or using a combination of gases to produce light, light emitting diodes (LEDs) use semi-conductive materials that illuminate when electricity is applied, providing instant illumination with no warm up or cool down time before re-striking. Because there is no warm up period, this light can be cycled on and off with no reduction in lamp life.

LED lights run at significantly cooler temperatures than traditional metal halide and high pressure sodium lights. LEDs contain no harmful gases, vapors, or mercury, making them both safer and more energy efficient. No extra energy is wasted in cooling enclosed work areas due to external heat emissions from bulb type lights, and the operator risks associated with traditional lighting methods, such as accidental burns and exposure to hazardous substances contained in the glass bulbs, are eliminated. Solid state LED lighting is also safer for the environment as LEDs are 100% recyclable. And recycling simultaneously reduces operating costs by eliminating the need for the expensive special disposal services required with traditional gas burning and arc type lamps.

Mount: The WAL-TBL-AH-SW-LED-PAR36-M1-1224 is suitable for surface or auto/truck mounting applications. After installation, the light can be rotated in both horizontal and vertical directions.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
