XLE-MD-AK-R1

No-touch Key - C-hook Design - Stainless Steel - Sanitary Way to Interact with the World

Product ID: 267695

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The XLE-MD-AK-R1 from Larson Electronics is a No-touch Key for preventing contact or contamination with dirty surfaces. This unit has a C-hook design that can be used to open hook-style handles. This stainless steel device can be attached to standard key chains and features a belt clip for hooking to belt loops.

The XLE-MD-AK-R1 facilitates contact-less opening of doors and pressing of buttons at ATMs, kiosks, elevators, gas station pumps, checkout registers, retail stores, payment pads and more. A C-hook design makes attaching onto hook-style handles quick and seamless. This compact device is made out of stainless steel for durability and extended use. A small circular opening allows the unit to be secured on standard key chains.

For sanitizing this stainless steel key at the end of the day, we offer a selection of Larson Electronics UV sanitation boxes. These units eliminate viruses, bacteria, mold, and spores on surfaces of keys, personal devices, phones, tablets and more. Multiple sizes and UV-C lamp configurations are available, depending on your disinfection needs.

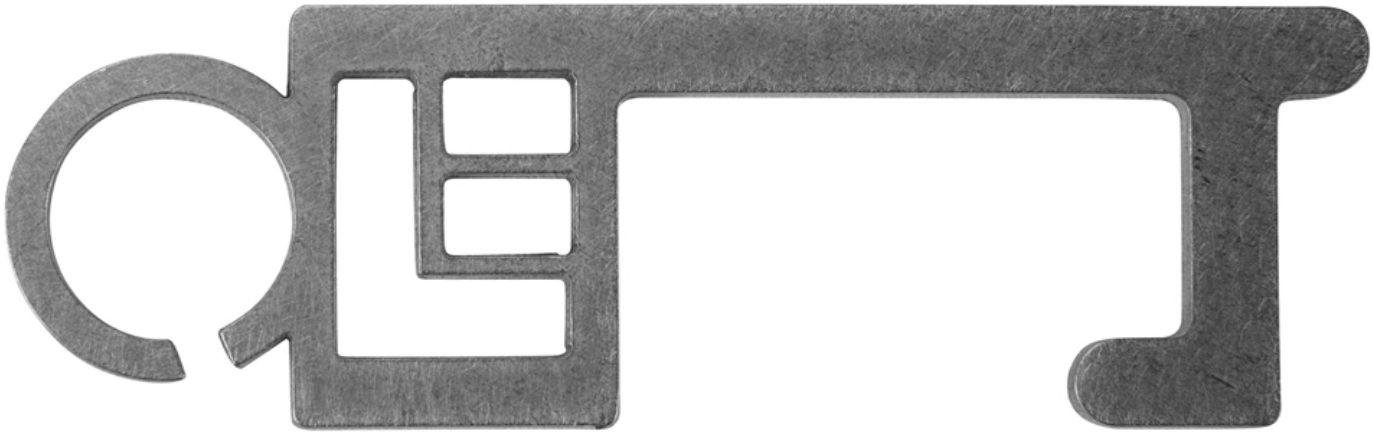

Suggested Applications: Contact-less activities, no-contact pressing, door handles, public locations, work sites, daily activities, and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
