XLE-UVC-XX-SGKT-1X

UV Safety Kit - (1) Pair of Safety Goggles - (1) Warning Sign - Pair with UV Disinfection Lights

Product ID: 267952

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The XLE-UVC-XX-SGKT-1X from Larson Electronics is an UV Safety Kit for use around UV fixtures and during UV disinfection. The kit includes (1) UV warning sign and (1) pair of safety goggles.

*****PLEASE NOTE: UV-C light can cause temporary or permanent loss of vision, and temporary acute redness or ulceration (mild to severe sunburn) to exposed skin. To prevent exposure, do not operate the device in any application that allows UV-C light to be visible during operation. NEVER LOOK DIRECTLY AT THE BULB OR DISINFECTING TARGET ZONE. DO NOT touch bulb with bare hands. The oils in your skin will damage the lamp. Fingerprints will result in reduced performance and significantly reduce the lifespan of the lamp unless they are removed with alcohol. Please read instruction manual for UV safety requirements before operating.*****

The XLE-UVC-XX-SGKT-1X allows for operators to warn others of the presence of potentially harmful UV radiation during UV disinfection using the warning sign and to protect their eyes using the safety goggles.

Warning Sign: The XLE-UVC-WSPC-R1 warning sign is constructed of heavy duty printed vinyl atop 1/8" CNC cut polycarbonate.

Safety Goggles: The XLE-MD-SG-PC-4XH-R1 safety goggles from Larson Electronics offer indirect

ventilation, an elastic strap, and durable polycarbonate construction. These safety goggles safety goggles are designed to fit over prescription eyewear and provide an indirect ventilation system to prevent fogging. The polycarbonate lens absorbs 99.9% of UV light and are ideal to use in a variety of different applications and environments. The XLE-MD-SG-PC-4XH-R1 safety goggles provide splash protection and meet ASTM requirements for testing parameters for specific hazardous drugs.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
