

ETX-ISX-1P-208V-4KVA-120V

4 kVA Explosion Proof Transformer - C1D1&2 - C2D1&2 - 1PH - 208V Primary - 120V Secondary
Product ID: 270407

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

ETX-ISX-1P-208V-4KVA-120V Explosion Proof Transformer

Unit Type: Explosion Proof Transformer

Dimensions: 12" x 18" x 8" (Internal)

Phase: Single Phase

kVA: 4

Primary Voltage: 208 V AC

Secondary Voltage: 120 V AC

Frequency: 60 Hz

Primary/Secondary Configuration: Two Winding

Winding Material: Copper

Termination: Lead Wires

Electrostatically Shielded: Yes

Temp Rise/Insulation: 115°C/180°C

Sound Level: Meets NEMA ST-20 Standards

Enclosure Material: Cast Aluminum

Hubs: (2) - (1) 3/4" NPT Hub @ North, (1) 3/4" NPT Hub @ South

Mounting: Surface

Weight: 200 lb

Ratings/Approvals

Class I, Divisions 1 & 2, Groups C & D
Class II, Divisions 1 & 2, Groups E, F, G
NEMA 4X

The ETX-ISX-1P-208V-4KVA-120V from Larson Electronics is an explosion proof transformer for use in hazardous locations. Suitable for both indoor and outdoor applications, the ETX-ISX-1P-208V-4KVA-120V provides increased reliability, protection against critical equipment failures and an extra level of

protection by isolating the power source from the connected device.

****PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS****

Transformer Features: With a transformer rating of 4 kVA, the ETX-ISX-1P-208V-4KVA-120V is a single phase unit with a primary voltage of 208 V AC. It also provides a secondary voltage of 120 V. The transformer contains a two-winding primary and secondary configuration and reverse connectables, as well as electrostatically shielded components and wire leads connection. Featuring robust construction, the enclosure is made out of cast aluminum.

The explosion proof transformer comes with a NEMA 4X rating, which offers watertight protection and corrosion resistance. The ETX-ISX-1P-208V-4KVA-120V may be mounted on compatible surfaces in Class I and Class II environments. This transformer provides owners with significant energy savings as well as offering environmental benefits. Higher efficiency not only extends the life of the transformer, but also turn into cost savings for owners in the form of lower energy bills and decreased cost of ownership.

Hubs: This explosion proof unit contains a total of two, 3/4" NPT hubs. One, 3/4" NPT hub is located on the north side and one, 3/4" NPT hub can be found on the south side.

Applications: Chemical processing plants, oil refineries, wastewater facilities and other classified industrial facilities that adheres to the ratings of this unit.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
