

XLE-MD-DF-AD-HS-BP

Electric Automatic Hand Sanitizer Dispenser - Battery Powered - Infrared Sensor, 1000mL Capacity - Universal Refillable

Product ID: 270451

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The XLE-MD-DF-AD-HS-BP from Larson Electronics is an Electric Automatic Hand Sanitizer Dispenser for no-contact hand disinfection. This unit utilizes an infrared sensor to detect movement when dispensing sanitizer. Equipped with a universal refillable compartment for non-proprietary liquids, the device operates on (4) C batteries and can be mounted on walls.

The XLE-MD-DF-AD-HS-BP automatically dispenses sanitizer on hands without contact. This electric device operates on (4) C batteries and offers anti-dripping, no-trailing features. A large universal compartment with 1,000 mL capacity holds liquid-based sanitizer. To fill the holder with sanitizer, individuals must first unlock the top cover with a key. Next, pour liquid sanitizer inside the refillable bottle and turn the power on (a test button is available for checking the power). Select the preferred liquid amount setting: 0.25-0.3mL (I) or 0.5-0.6mL (II). Close the top cover to complete the refilling process.

There is no limitation on the quantity of order for this unit. Customers who purchased this device previously may order again.

The unit accepts a wide range of non-proprietary sanitizers, allowing individuals to use different types of liquid solutions based on availability. This ensures people would not be hindered by shortages of proprietary cartridges. A safety lock prevents tampering when installed in public locations or buildings. Constructed of ABS, the unit features a clear window for monitoring usage.

Mount: The automatic hand sanitizer dispenser is suitable for wall mounting applications.

Suggested Applications: Hand sanitation, workplace safety, cleaning, no-touch disinfection and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
