Product ID: 270543

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The HLE-PC-IOS-A11P Hazardous Location Phone Case for Apple iPhone 11 Pro offers superior protection against water, dust, shock/vibration and potentially explosive substances in hazardous locations. This accessory takes on the following ratings: Class I, Division 2, ATEX Zone 2, NEMA 4 and IP64. The Apple iPhone 11 Pro is not included with the product (case only).

The HLE-PC-IOS-A11P is a rugged phone case that allows operators to use their Apple iPhone 11 Pro in Class I, Division 2 and ATEX Zone 2 rated hazardous locations. This accessory features a widescreen, multi-touch display and caters to brightness levels up to 625 cd/m2. Powered by an A10 chipset, the following connectivity features can be used with the phone case: Wi-Fi (802.11a/b/g/n/ac), 3G, LTE and Bluetooth 4.0. A 12-megapixel back-located camera and a 7-megapixel front-located camera captures high quality images at flammable work sites, which is ideal for workplace documentation, recording, communication and inspections.

This hazardous location Apple iPhone 11 Pro phone case features an operating temperature range of 32°F to 95°F, as well as a non-operating temperature range of -4°F to 113°F. The device can be used in 5% to 95% non-condensing humid environments. With the hazardous location phone case, up to 14 hours on 3G of talk time is provided. Runtime when using the internet on the mobile device includes the following: up to 12 hours on 3G, up to 13 hours on LTE and up to 14 hours on Wi-Fi. NEMA 4 and IP64 ratings ensure reliable protection in hazardous locations and rugged sites.

Charging: The lithium-ion battery-powered hazardous location phone can be charged via USB or power adapter.

Applications: Hazardous locations, oil and gas facilities, petroleum refineries, chemical processing and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation.
