BTT-LON-207WH-SMBUS-SP1101

Male Plug for BTT-LON-207WH-SMBUS Batteries

Product ID: 271343

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Replacement male plug for BTT-LON-207WH-SMBUS batteries. This male plug contains six gold plated pins rated at 10 amps per pin. The wiring shell of the plug is capable of being potted for weatherproofing after installing cables. Each pin is numbered for identification. The cable output from the plug is notched to provide strain relief to the pins. The plug has a .255" x .175" opening for outgoing wires. The plug features four keyways to ensure it is always installed correctly.
