Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

SBG-CTR-PKG-20FT-V1 Steel Bug Out Container

Container Specs:

Dimensions: 20'-L

Weight: -

Blast Valve Accommodation: Reinforced Ventilation Tubes w/ Blast Valve Ready Bolt Flanges

Container Material: Steel

Container Finish: Sand Blasted w/ 25-year Coal Tar Epoxy Waterproof and Corrosion Resistant Exterior Coating

Structural Reinforcing: One Piece Solid 1/4" Steel - Top and Bottom, Interior Steel Ribcage, 2.5" Steel Floor Joist @ 16" OC w/ 3/4" Subfloor

Insulation: R11 Fiberglass Insulation and ½" Plywood Walls

Ceiling Type/Paint: Drywall and Painted Ceiling, Solid Wood Painted Trim

Flooring: Vinyl Laminate Mold/Stain Resistant

Entrance/Exit: Hatch and Ladder

Supporting Documents: Certified Engineered and Structural Drawings for Lateral and Hydrostatic Earth Pressures, Foundations and Buoyancy

Electrical and LED Lighting Specs:

Panel Capacity: 50A

Light Type: Interior LED Lighting w/ Occupancy Sensor Lighting Circuits

Outlet Receptacle Voltage: 120V

Ratings/Approvals

Waterproof and Corrosion Resistant Exterior Coating

The Larson Electronics SBG-CTR-PKG-20FT-V1 Bug Out Container for Bunker serves as a heavy-duty, temporary shelter in outdoor locations. Ready to accommodate customer-provided blast valves, the unit features a hatch and ladder for entrance/exit, 50-amp electrical panel, interior LED lighting with occupancy sensor circuits and 120V outlet receptacles for powering or charging devices. This container measures 20 feet in length and is constructed of steel with a sand blasted, 25-year coal tar epoxy exterior coating.

The SBG-CTR-PKG-20FT-V1 provides a safe and well-protected shelter during emergencies, catastrophes and extreme weather. An accessible hatch and ladder serves as the entrance/exit for the bug out container. Reinforced ventilation tubes with blast valve ready bolt flanges are available for installing customer-provided blast valves. Inside the temporary shelter, individuals may access a 50-amp electrical panel and 120V outlet receptacles for powering appliances or equipment, charging devices and more. Interior LED lights with occupancy sensor circuits are available for general illumination in the container.

This 20-foot unit is made out of steel with a sand blasted, 25-year coal tar epoxy exterior coating that is waterproof and corrosion resistant. The durable coating ensures long-term protection from outdoor elements. Equipped with an interior steel ribcage, the top and bottom of the container are reinforced with one piece, solid plate 1/4" steel. R11 fiberglass insulation and 1/2" plywood walls improve heating and cooling efficiency. The flooring foundation consists of 2.5" steel joists @ 16" OC with 3/4" subfloor. For top-layer protection, the vinyl laminate flooring is mold and stain resistant. The drywall, painted ceiling features solid wood painted trim. This unit comes with certified engineered and structural drawings for lateral and hydrostatic earth pressures, foundations and buoyancy.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
