

SPG-SKM-GCS-M1

Remote Mount Gate Controller Frame - (2) Towers, Job Box, Conduit Runs - Skid Base - Yellow

Product ID: 271892

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in Texas

The Larson Electronics SPG-SKM-GCS-M1 Remote Mount Gate Controller Frame can be used to monitor and manage passages at entrances, exits, busy locations, remote sites and outdoor areas. Secured on a skid base, this unit includes two towers, mounting accommodations for customer-provided solar panels, job box and conduit runs. Customers must provide cameras and other supporting devices to complete the system.

***PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO LIGHT**

MASTS OR LIGHT TOWERS*

The SPG-SKM-GCS-M1 consists of the frame components only. System electronics, such as cameras, gate controller, gate arm, keypad, 2-way interface voice and screen display device, network equipment, wireless bridge equipment, batteries, solar panels, solar charge controller and other supporting electronics, that are required for a fully working remote mount gate controller system are not included and must be provided by the customer.

This assembly consists of two towers for mounting a customer-provided camera and a customer-provided control panel. Mounting accommodations for customer-provided solar panels are also available on the frame. An accessible job box can be found on the skid base, which can be used to store customer-provided batteries and electronics. Conduit runs for electrical connections are included with the unit. All frame components are secured on a heavy-duty skid base for seamless transportation.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
