

LMP-FG-XX-GWP-1X

Pulley for LMP-FG Series Masts

Product ID: 272948

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The LMP-FG-XX-GWP-1X from Larson Electronics is a Pulley for LMP-FG Series Masts that is ideal for assisting in hoisting assorted equipment to the top of fiberglass masts before installation and allowing operators to safely lower equipment during maintenance.

The LMP-FG-XX-GWP-1X is a pulley that can be used to assist in raising and lowering assorted equipment being used in conjunction with a fiberglass mast. This pulley is constructed from 316 stainless steel. The maximum payload on this pulley greatly exceeds the weight limit of a fiberglass mast. However, it is still recommended for use with light loads only.

Please note: This pulley is designed for raising and lowering light loads of assorted equipment such as wire antennas. It should NEVER be used for climbing purposes, as safety equipment, or to support a person or other living thing.

The LMP-FG-XX-GWP-1X accepts rope that has a diameter between 5/32" and 1/4". A close tolerance between the roller and the body prevents the rope from coming off of the roller during use.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or

message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
