Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The RBALL-HPS-1000W-50HZ-QUAD from Larson Electronics is a 1000 Watt High Pressure Sodium (HPS) Ballast that features a 4-tap voltage input for compatibility from 120 to 277 volts.

The RBALL-HPS-1000W-50HZ-QUAD has a high power factor of 90% when used with a 1000W lamp which ensures maximum efficiency. This high pressure sodium (HPS) ballast has a temperature rating of 221°F which allows this ballast to be mounted in areas where high heat is an issue including warehouses and manufacturing facilities.
