GAU-HB-22-400W-MH-WCM-347V

400W High Bay Metal Halide Lamp - Pulse Start - 36,000 Lumens, 22" Aluminum Reflector - Hook Mount

Product ID: 273704

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

GAU-HB-22-400W-MH-WCM-347V Metal Halide Fixture

Lamp Type: Metal Halide
Dimensions: 13.5" x 9" x 9.5"
Weight: 15 lbs
Voltage: 347V AC
Watts: 400
Lumens: 36,000
Lamp Life Expectancy: 25,000+ Hours
Beam Configuration: Flood
Housing Material: Die Cast Aluminum Housing w/ Chromate Conversion Coating
Reflector Material: 22" Aluminum Reflector
Lens Material: Acrylic Conical Lens
Mounting: Malleable Hook or Swivel Pendant Mount and Downrod
Socket: Porcelain 5KV Pulse Rated Mogul Base Socket w/ Nickel Plated Screw Shell and Adjustable Accessory Bracket
Color: Natural Metal, White

Made in the USA

The GAU-HB-22-400W-MH-WCM-347V 400 Watt High Bay Metal Halide

Lamp from Larson Electronics is a powerful lighting solution for industrial applications. This fixture is compatible with 347V AC and uses pulse start technology to optimize warm up and re-strike processes. A 22" aluminum reflector increases beam accuracy and light quality during illumination. Operators may mount the light in elevated positions using an included malleable hook or a swivel pendant mount and downrod.

The GAU-HB-22-400W-MH-WCM-347V is suitable for intense illumination in industrial facilities. This 400-watt unit operates on 347V AC and leverages pulse start technology during operation. Without a starting probe electrode, the lamp benefits from longer lamp life and up to 33 percent increased lumen maintenance. The metal halide luminary provides up to 36,000 lumens of white light in a flood beam configuration. This high bay fixture features a porcelain 5KV pulse rated mogul base socket with a nickel plated screw shell.

The metal halide lamp is protected by a heavy-duty die cast aluminum housing with a chromate conversion finish. For enhanced clarity during illumination, the lamp features an acrylic conical lens and a 22" aluminum reflector. This unit is listed for dry locations.

Mounting: The GAU-HB-22-400W-MH-WCM-347V can be mounted from elevated positions using an included malleable hook. Alternatively, operators may also choose to mount the fixture via a swivel pendant mount and downrod.

Applications: High bay lighting systems, wide area illumination, general illumination, warehouses, industrial facilities, gymnasiums, commercial spaces and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
