

PLM-13.5-BASE-WM-HG-KT

Wall Mounting Bracket Kit for PLM-13.5 Pneumatic Masts - Hinge at Bottom Base

Product ID: 274091

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in the USA

The Larson Electronics PLM-13.5-BASE-WM-HG-KT Mounting Kit is designed for vertically mounting PLM 13.5 masts to flat surfaces. This kit consists of an upright bracket and a bottom base mounting bracket with a locking hinge. When servicing equipment at the top of the mast, the tower can be tilted up to 90 degrees.

The PLM-13.5-BASE-WM-HG-KT mounting base kit is intended for mounting to walls, sides of trailers, sides or in the bed of trucks, side or rear of recreational vehicles (RVs) or semi-trucks, or any other flat surface with the intention of mounting the PLM-13.5 mast in a vertical orientation. This kit includes a base mounting bracket with a lockable hinge and upright support bracket.

The base mounting bracket allows the mast to sit in the base, securing the bottom side of the mast, and includes two side wings on this base to allow mounting to flat vertical surfaces. The upright support bracket slides up the mast to secure it at a higher point of attachment. During maintenance, operators can undo a top latch and unlock a hinge at the bottom base to allow the mast to tilt up to 90 degrees for quick access to equipment at the top of the tower.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
