HAL-48-33W-LED-1227-C-AMB

33W Low Voltage LED Fixture for Hazardous Location Lighting - C1D2 - 120-277V AC - Amber Lens

Product ID: 279591

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

HAL-48-33W-LED-1227-C-AMB Hazardous Location LED Lighting

Listing: NRTL Listed for United States & Canada
Lamp Technology: LED
Dimensions: 46.88"L x 2.68"W x 3.69"D
Weight: 2.8 lbs | 1.2 kgs
Voltage: 120-277V AC, 50/60 Hz
Watts: 33.6W
Lumens: 2416 lms
Luminous Efficacy: -
Lamp Life Expectancy: 100,000 Hours
Color Temp: 3000K - Amber Lens
CRI: 75
Beam Type: 100° Flood or 30° Spot
Lighting Configuration: Flood or Spot
Power Efficiency: -
Power Factor: -
Amps: 0.28A @ 120V, 0.14A @ 240V, 0.12A @ 277V
Ambient Operating Temp Range:-40°C – +85°C
Operating Temp Rating: -
Housing Material: Aluminum
Finish: Powder Coat
Mounting: Standard Triangle End Brackets
Wiring: 5Ft Lead | White: + Black: -

Ratings

Class I, Division 2 Groups A,B,C,D
NRTL Certified to CSA 22.2 No. 250.0
NRTL Certified to UL 598
IP54 Ingress Protection
T3 Temperature Rating
Turtle Safe
Animal and Wildlife Friendly

Buy American Compliant

The Larson Electronics HAL-48-33W-LED-1227-C-AMB is a Low Voltage Hazardous Location Lighting solution approved for Class I, Division 2 environments and for use in wet locations. This powerful 46.88" long LED strip light produces 2,416 lumens with amber output and operates on 120-277V AC, 50/60 Hz. The turtle safe unit is suitable for animal and wildlife applications.

The HAL-48-33W-LED-1227-C-AMB is designed to provide a high output and ruggedly durable lighting solution for applications where Class I, Division 2 compliance is required. This explosion proof light is equipped with an amber lens and features a 3000K color temperature rating. The animal and wildlife friendly light is turtle safe. This light is constructed of powder coated extruded aluminum for excellent strength and durability and is rated IP54 for protection against exposure to splashing water and limited dust ingress. These units are configured in a 46.88" long strip or "bar" profile for installation in locations where wide dispersal and a low profile is preferred. The high output, cool running operation, and good color rendering properties of this light make it an ideal replacement for older, bulkier, and less reliable HID and halogen light fixtures.

Durability/Mounting: The HAL-48-33W-LED-1227-C-AMB hazardous location LED light is constructed of extruded aluminum with a tough powder coat finish for high strength and durability. The housing is IP54 rated, providing limited ingress protection against dust, and basic protection against splashing water such as rain. This design is weather resistant, suitable for indoor or outdoor applications, and ideal for areas where wetness or dusty conditions are commonly encountered.
The LEDs in this unit are Cree X-Lamp XR-E units that have been chosen for their high lumen per watt ratio and extreme long life. These Cree LEDs provide over 90 lumens per watt output and have a 70% lumen retention at 50,000 hours, giving them better efficiency and operational life than comparable LEDs.
Versatility: The HAL-48-33W-LED-1227-C-AMB is suitable for Class I, Division 2 Groups A, B, C and D locations. This unit carries an IP54 water resistant rating ensuring protection against limited ingress from dust, dirt, and basic protection against light water spray landing directly on the fixture. This light is ideal for indoor or outdoor applications and industrial operations with hazardous location classification where dusty or wet conditions are commonly encountered.
Wiring/Power: These hazardous area LED lights are equipped with 5 feet of cord containing a standard two wire (White+ Black-) connecting configuration. These lights operate on 120-277V AC, 50/60 Hz current.
Mount: Mounting for this unit is provided by two standard adjustable end brackets that allow operators to mount the light to flat surfaces and then adjust the light 170° vertically for the best placement. The entire assembly weighs 2.8 lbs and measures 46.88 inches in length, and 2.68 inches wide and 3.69 inches deep, making it ideal for mounting in areas where space is limited and a low profile fixture more readily installed.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
