

BC-5

Bar Clamp Mount for LED Lights Only

Product ID: 280528

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The BC-5 from Larson Electronics is a Bar Clamp Mount designed to mount LED lights to round mounting surfaces such as pipes, tubes, railings, and bars with a minimum diameter of 1.030".

A simple aluminum bar clamp mount to attach the LED emitter lights to various tubes, rails, bars, and pipes. The mount features a through hole that enables the operator to pass the 1/4-20 bolt through it and secure the stud with a Nylock nut. The Nylock nut and bolt are provided with each bar clamp and each LED emitter light. There is a recessed surface surrounding the through hole to accommodate the unique aluminum mount and rubber bushing combination found on each LED emitter light.

To install the BC-5, the installer simply affixes the light to the top portion and places the assembly on the rail or bar. The included 1/4-20 bolt is then tightened down to secure the clamp to both the light and the rail, tube, or other compatible mounting surface.

The aluminum bar clamp mounts are ideal for mounting the LED emitter lights to boat rails, ATV rails, roof racks, conduit or other roundtube stock applications. Each bar clamp mount is machined from aluminum and either clear or black anodized for protection from oxidization. These mounts are lightweight, non-intrusive, and durable.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or

accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
