

HST-CLR-5-2.1-6IN

1/2" Clear Heat Shrink Tubing, 6" Length, Ideal for Wire Labeling

Product ID: 280602

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

1/2" ID Clear Heat Shrink Tubing. Pre-cut to 6" length. This heat shrink forms to the exact shape and size of the underlying material when heated. Clear heat shrink is commonly used as a way to label cords and cable sets. The 1/2" ID is post shrinking. We recommend going with a post shrunk size slightly smaller than the cord/cable being wrapped to ensure secure fitment. Heat Shrink tubing is quick and easy to install for virtually any application. This tubing is halogen-free, flexible, and flame retardant.
