EPS-XX-WSB-SS.304-12.6.6-N3R

Stainless Steel Enclosure for EPS and EPSW Series Switches & Control Stations - 6" x 6" x 12" - Hinged Door - Natural Finish - NEMA 3R - Rain Tight

Product ID: 285177

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

EPS-XX-WSB-SS.304-12.6.6-N3R Industrial Enclosure NEMA 3R

Unit Type: Continuously Welded Seam Stainless Steel Enclosure

Enclosure Dimensions: 6"-W x 6"-D x 12"-H

Weight: -

Cubic Capacity: 432 cubic in.

Number of Doors (Fixed): (1)

Materials: 304 Stainless Steel

Finish: Natural

Panel Gauge: -

Cover Type: Hinged, Flip Up Lid

Mount: Wall Mount via Embossed Mounting Holes

Knockouts: (1); On Bottom

The EPS-XX-WSB-SS.304-12.6.6-N3R from Larson Electronics is a Stainless Steel Enclosure for EPS and EPSW Series Switches and Control Stations. Featuring continuously welded seam construction, this unit offers 432 cubic inches of space and a hinged, flip up lid cover. The NEMA 3R enclosure is naturally finished and is rain tight.

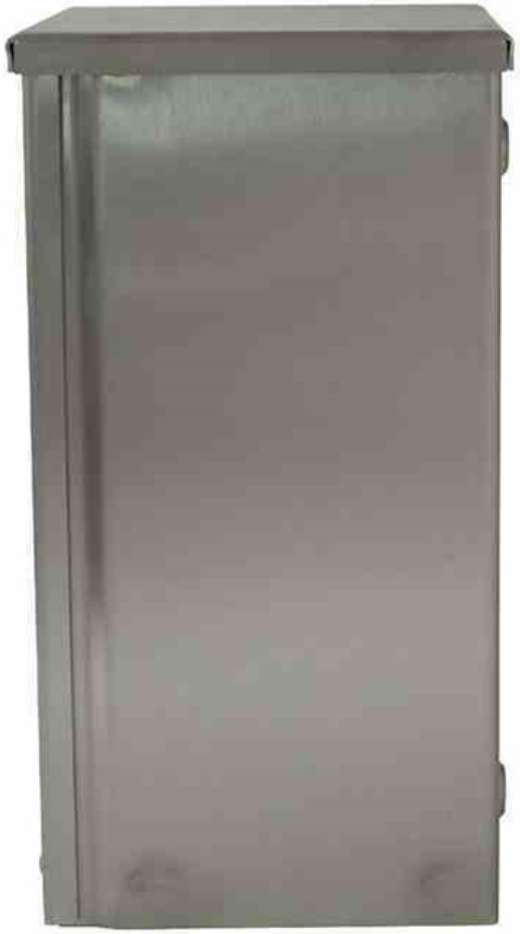

The stainless steel enclosure measures 6" x 6" x 12" and takes on continuously welded seam construction. This unit features 432 cubic inches of space for customer-provided EPS and EPSW Series Switches and Control Stations. Internal

components are accessible via a hinged, flip up lid. Constructed of 304 stainless steel with a natural finish, a NEMA 3R rating indicates that the enclosure is rain tight and provides a degree of protection against the ingress of water and debris.
Connections: The EPS-XX-WSB-SS.304-12.6.6-N3R allows for bottom feed to the switch for dead end device boxes. Alternatively, operators can use elbows to redirect the top feed down and out the bottom of the enclosure for feed through applications while retaining the weatherproof protection. This enclosure also offers enough room on the interior to allow for installing conduit seal-offs on the bottom side of the device mounted inside the enclosure.
Knockouts: The EPS-XX-WSB-SS.304-12.6.6-N3R is equipped with a knockout on the bottom allowing conduit to be run into the enclosure while retaining the weatherproof protection.
Mounting: Mounting brackets on the interior of the enclosure allow for the mounting of EPS and EPSW series switches and control stations. The EPS-XX-WSB-SS.304-12.6.6-N3R is compatible with wall mounting applications, via embossed mounting holes.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
