

MPD-DS-FS-INT-3P-3W-15KV-600A-EF-BM-N12

Load Interrupter Switch, 600 Amp, 15KV AC, 3-Pole 3-Wire, Class 125E Fuses, Floor Standing, NEMA 12

Product ID: 319358

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MPD-DS-FS-INT-3P-3W-15KV-600A-EF-BM-N12 Load Interrupter Switch

Unit Type: Load Interrupter Switch, 3-Pole, Quick-Make, Quick-Break, Manual, Stored-energy

Line-In: N/A (customer provided)

Line-In Cord Cap: N/A (customer provided)

Line-In Connections: Terminal Lugs, Accepts 750MCM-1/0

Line-In Orientation: Top and Bottom Feed

Nominal Voltage: 13.8KV AC, 3 Phase

Maximum Voltage: 15KV AC, 3 Phase

BIL: 95 KV

Protection Method: Load Interrupter Switch

Protection Type: Class 125E fuses

Protection Fuses: 3 of Class 125E fuses

Continuous Current Rating: 600A

Interrupting Current Rating: 600A

Momentary Current Rating: 40 kA, Asymmetrical

Disconnect Means: Manual via Handle

Line-Out: N/A (customer provided)

Line-Out Cord Cap: N/A (customer provided)

Line-Out Connection: Terminal Lugs, Accepts 750MCM-1/0

Line-Out Orientation: Side Feed

Ratings

UL Listed for service entrance equipment

NEMA certified for performance and safety standards

IEEE standards compliant for medium voltage switchgear

Complies with CSA C22.2 No. 193

NEMA 12 Rated for Indoor and Outdoor Use

Made in the USA

Protection Relay: Included

IR Viewing Window: Included, in Each Compartment, 4" IR windows, Support for both long-wave (8–12µm) and short-wave (0.35–5.5µm) IR cameras, Sufficient windows to view all feeder cable and bus connections at safe viewing angles, 98% infrared wavelength, w/ Removable metallic cover plate for each window

Inter-phase Barriers: Included

Accessibility: Front Access Only

Sealing: Gaskets on all doors

Door Interlock: Switch must be open before door can open, Door must be closed before switch can close

Open/Closed Indicators: Included

Bus Material: Tin-plated copper, round edge, braced for 40kA

Enclosure Material: 11-gauge steel with drip hood

Enclosure Finish: ANSI 49 Grey

Enclosure Type: NEMA 12 Ventilated

Dimensions: 36"-W x 52"-H x 24"-D

Weight: 800 lbs

Shipping Dimensions: 58"-W x 44"-L x 98"-H

Shipping Weight: 850 lbs

Larson Electronics manufactures a wide variety of custom power distribution systems. The pictures displayed for this unit are a general representation of form factor and may not accurately represent this exact configuration in every detail due to being custom builds. The specifics for this configuration are listed in the specification table and one-line diagram.

All grounding shall comply with state and local codes and meet the minimum requirements of the National Electronic Code section 250

Made in the USA

The Larson Electronics MPD-DS-FS-INT-3P-3W-15KV-600A-EF-BM-N12 Power Distribution Interrupter Switch is engineered for dependable, safe, and efficient power distribution in medium voltage applications. This switch is ideal for industrial and utility settings where robust performance and safety are paramount. Designed for floor standing installations, it features a fused disconnect setup within a durable NEMA 12 rated enclosure, making it suitable for both indoor and outdoor use.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS

The MPD-DS-FS-INT-3P-3W-15KV-600A-EF-BM-N12 Load Interrupter Switch includes a manual operating handle, providing users with direct control over the power connection. The system features a dead front cover that ensures user safety by preventing direct contact with the fuses. This cover is vented, allowing for visual inspection without exposure to live parts. When maintenance or fuse replacement is required, the cover can be removed to provide full access to the fuses.

Enclosure Design: Constructed from robust sheet steel and finished in ANSI 49 grey, the enclosure offers both protection and aesthetic appeal. Its NEMA 12 rating safeguards against environmental factors such as water, moisture, and debris, making it versatile for various installation environments. The ventilated design enhances natural cooling and helps maintain optimal operating temperatures.

Certification: Load Interrupter Switch is UL Listed for service entrance equipment, NEMA certified for performance and safety standards, IEEE standards compliant for medium voltage switchgear

Mount: Interrupter Switch is designed for floor mounting. This mounting flexibility ensures that it can be securely installed on vertical surfaces, optimizing space and accessibility in busy industrial settings.

Customization: The MPD-DS-FS-INT-3P-3W-15KV-600A-EF-BM-N12 Interrupter Switch can be tailored to meet specific operational requirements. Customizations may include different fuse types, additional protective features, or modifications to suit particular installation environments and power distribution needs.

Applications: This interrupter switch is suitable for a wide range of applications, including:

1. Primary and secondary disconnects for transformers.
2. Industrial and utility distribution systems.

3. Medium voltage motor controllers and switchgear setups.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
