Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

WPJB-304SS-VR-79x67x75-N3R-BP Weatherproof Hinge-Cover Enclosure

Unit Type: Weatherproof Hinge-Cover Enclosure for 750 kVA Transformer
Dimensions: 79" x 67" x 75"
Weight: -
Cable Entry Provisions: Included
Termination: Corrosion Resistance Lugs, Installed at the Primary/Secondary Connection Points
Materials: 304 Stainless Steel
Mount: Surface via (4) Mounting Holes
Transformer: Not Included - Enclosure Only
Color: Munsell™ 7GY 3.29/1.5 Bell Green

The Larson Electronics WPJB-304SS-VR-79x67x75-N3R-BP is a NEMA 3R rated 304 stainless steel enclosure box with a hinge cover. This enclosure features a factory installed back plate which allows mounted equipment inside to be removed and put back as one complete assembly. This hinge-cover enclosure is ideal for applications that require protection from rain, sleet, snow or dripping water.

The WPJB-304SS-VR-79x67x75-N3R-BP is a 79” x 67” x 75” 304 stainless steel enclosure box, with a drip shield top and seam-free sides, front and back to protect inside equipment from the harmful effects of rain, snow or sleet. The continuous hinge is fashioned from 304 stainless steel with a stainless-steel pin, while the box cover is fastened securely with captive plated steel screws, making this a rugged and durable enclosure. A green polyester power coat finish inside and out gives this box additional protection against corrosion and a polished look. Collar studs are provided for mounting optional panels, and hasp and staple are included for padlocking.

A specially designed, factory-installed back plate is also included, which allows operators to mount their equipment inside the enclosure as one complete assembly, rather than individual pieces. This greatly reduces the amount of drill holes and allows the equipment to be removed from the enclosure and put back as one whole unit.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
