MPD-SWGR-MV-XX-SP9612

15kV Metal-Clad Switchgear Replacement Breaker Compartment Assembly - VCP-W, 25kA, 1200A, Dual Voltage Transformer Package

Product ID: 341375

Please see last page for supporting documentation for this product (certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MPD-SWGR-MV-XX-SP9612 Metal-Clad Switchgear Replacement Breaker Compartment Assembly

Unit Type: Replacement Breaker Compartment Assembly
Application: Existing Metal-Clad Switchgear Retrofit
Breaker Type: Vacuum Circuit Breaker
Rated Voltage: 15 kV
Continuous Current Rating: 1200A
Interrupting Rating: 25 kA
Voltage Transformers: (2) 15kV Voltage Transformers
MOC Switch: 9-Pole (5A / 4B Contacts)
TOC Switch: 9-Pole (4A / 5B Contacts)
Breaker Control Switch: Included
Pilot Lights: LED Light Assemblies, Qty. 2 (Red & Green)
Lockout Relay: Included
Protective Relay: Included
Test Switch: Included
Auxiliary Relay: Included
Compatibility: Existing 15kV Metal-Clad Switchgear
Installation: Retrofit Existing Switchgear Cell

The Larson Electronics MPD-SWGR-MV-XX-SP9612 15kV Metal-Clad Switchgear Replacement Breaker Compartment Assembly - VCP-W, 25kA, 1200A, Dual Voltage Transformer Package is designed for retrofit applications involving existing 15kV metal-clad switchgear. This replacement breaker compartment assembly features a 15kV vacuum circuit breaker rated for 25kA interrupting capacity and 1200A continuous current, and is configured for installation within Structure 3. The assembly includes two (2) 15kV voltage transformers installed in dedicated compartments, along with integrated protection and control components to support modernization of existing medium-voltage switchgear while maintaining compatibility with the original equipment configuration.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS

Replacement Breaker Compartment Features: This MPD-SWGR-MV-XX-SP9612 includes a replacement 15kV vacuum circuit breaker compartment rated for 25kA and 1200A, two (2) 15kV voltage transformers, mechanism-operated and truck-operated switches, breaker control switch, LED pilot lights, lockout relay, protective relay, test switch, auxiliary relay, and associated control components. The assembly is designed for retrofit installation within an existing metal-clad switchgear cell while minimizing modifications to the existing switchgear structure.

Applications: Retrofit and modernization of existing 15kV metal-clad switchgear requiring replacement breaker compartments with integrated metering and protection equipment. Suitable for medium-voltage switchgear upgrade projects involving replacement of aging breaker assemblies while maintaining compatibility with existing switchgear infrastructure.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
