

HAL-SBM

Sliding bracket mount for HAL series hazardous location lights

Product ID: 45261

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Sliding bracket mounts for the HAL-48-2L and HAL-24-2L Class 1 Division 2 hazardous location lights. The brackets can moved into any position along the rail on the top of the light fixture. Each bracket can be angled to suit the mounting location as well. This enables the operator to install this light in replacement of any other type similar fixture or move the brackets to meet the conditions of a new mounting area.
