

RL-10-DCA

RL-10-DCA RL-10 Car Adapter - 12/24 Volt DC

Product ID: 46397

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

12 volt/24 volt car adapter for RL-10 HID Flashlight. This car adapter takes the shape and functional form of the existing batteries. This unit slides into the same slot as the batteries at the base of the RL-10 and plugs into the cigarette adapter. The 990 HID flashlight will run on the vehicle's battery. The RL-10 HID spotlight operates like a rechargeable screw gun. The HID RL-10 batteries are interchangeable. The vehicle adapter is interchangeable with the batteries. The vehicle adapter does not charge the existing batteries. An AC/DC converter with 15 amp capacity can be used in conjunction with this vehicle adapter to enable the RL-10 to run on 110AC or 240AC (normal wall plugs).
