Product ID: 46852

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDTL-12M

Lamp Type: LED

3 year warranty replacement on this LED light. After 30 days, the customer ships the failed LED light and/or LED bulb to Larson Electronics at their expense. If the failure is a manufacturer defect, we will ship a new replacement to the customer. If failure occurs within 30 days of receipt, Larson Electronics will provide a return label via email to the customer. When the failed light is returned, Larson Electronics will

ship a new replacement.

The LEDTL-12M Magnetic LED Light - LED task light - LED keychain light provides a versatile and convenient light source that can be easily attached to ferrous metallic surfaces to provide an instant source of illumination wherever it is needed.

This small but powerful magnetic LED light is about the size of a golf ball but packs an intensely bright wide angle LED. The LED task light is ideal for various applications such as automotive mechanics, carpentry, electrical work, plumbing, anywhere a small, powerful white light is needed, which makes it ideal for small, tight spaces where conventional LED lights would not fit, or mount.

The magnetic LED light comes with 12 rare earth magnets so that positioning of the LED and it`s beam can be set to virtually any angle. Can be used around the household, such examples include but not limited to; wiring home entertainment systems, crawling around dark, small areas, turning on a breaker and other general household uses. Having the 12 magnets, the magnetic LED light is also commonly used as a nail/took/hardware "pick up" tool for those predicaments when an important piece of the puzzle falls in an akward place/position.
