LEDB-4-M

LED Beacon - 100lb. Grip Magnetic Base - 18 LEDs - 50,000 Life Hours - IP68 - 12V DC

Product ID: 48417

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDB-4-M LED Strobing Beacon

Lamp Type: LED
Dimensions: 2.8"-Wide 5.2" Height
Lamp Weight: 1 lbs
Voltage: 12-32VDC
Lumens: 252
Lighting Configuration: Strobing Triple Flash
LED Life Expectancy: 50,000 hours
Ambient Operating Temp Range: -40 to 80 C
Vibration:
Materials: Polycarbonate
Wiring: 16 Foot Straight Cord / Cigarette Plug
Mounting:100 lbs Grip Magnetic Mount

Features

360 Degree Visibility
Waterproof / Shock Resistant
12 Volts DC
Triple Strobe Pattern
Compact
IP65 Waterproof

Made in the USA

The Larson Electronics LEDB-4-M Magentic Mount Beacon works on 12 volts DC (optional model available in 120-277VAC with inline transformer) configurations for operation with standard AC power. This LED Beacon offers a choice of colors and is designed to provide a signal with a full 360 degrees of visibility.

This compact LED beacon contains an LED lamp assembly that produces 360° of

brilliant light without the dark spots or uneveness of traditional incandescent beacon lights. This LED beacon is available in a choice of white, blue, green, amber or red colors, and produces a signal that is visible over a 360 degree range. This unit contains 3 modules, each containing 6 LEDs, that are specially mounted within a clear Fresnel lens to produce a full 360 degrees of signal radiation when the unit is powered on. This waterproof and shock resistant unit produces a triple flash strobe pattern that makes it ideal for work, industrial, utility and security applications. A cast aluminum base and rugged lens provides excellent durability and is resistant to vibration and impacts.

The LEDB-4M has a 100lb. grip magnetic base and includes a 16 foot straight cord with a cigarette plug and inline switch. This 100 lbs grip magnetic base provides for secure placement on any surface that will accept a magnet, and the inline switch and cigarette plug makes switching this unit from one vehicle to another simple and allows the user to simply toggle the light on or off without having to unplug it from the power source. Operators can mount this strobe to a vehicle and safely travel up to 35mph with this strobe light attached to roof. At only 2.8" Wide x 5.5" High and weighing only 1 lbs, this LED strobe beacon provides excellent power and visibility in a very compact form factor.
