EPL-PM-TP1A

Non-Sparking Collapsible Tripod for EPL-PM and EPL-BS Explosion Proof Lights

Product ID: 48447

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Non-Sparking Collapsible Tripod for EPL-PM and EPL-BS Explosion Proof Lights.
This collapsible tripod weighs 4 pounds and can easily detach from the EPL-PM-1X30LED-100, EPL-BS-70-100 and EPL-PM-1X300-10 and related explosion proof lights. Operators can easily deploy this durable tripod and put the pedestal mount light on top of it. Popular with gas companies for first responder and repair operations. The tripod elevates the light to 5 feet in height and collapses down to 3 feet. The legs also fold in and collapse making this non-sparking tripod easy to store and transport This makes the both the light and the tripod easy to use for small jobs and then store in the truck.
