

***RENTAL* Explosion Proof 100 Foot Extension Cord with Inline Switch - 15 amp continuous service**

Part #: RNT-EPEXC-100-ILS

**Larson Electronics RNT-EPEXC-100-ILS 100' Explosion Proof Extension Cord With Inline Switch****This unit is for rentals. Please scroll down for rental rates**

The Larson Electronics EPEXC-100-ILS Explosion Proof extension cord with inline switch allows operators to safely extend the range of their explosion proof light or equipment cords beyond the boundaries of the hazardous work area. These units are constructed of 100 feet of 14/3 SOOW explosion proof cord and are rated at 15 amps of continuous service. The cord is chemical and abrasion resistant and comes with a Class 1 Division 1 explosion proof receptacle and switch installed on one end and a Class 1 Division 1 explosion proof plug installed on the other end. We also include an extra matching plug for operators to attach to their equipment which allows them to avoid any issues with plug and receptacle equipment compatibility with this cord.

[Click Photo to Enlarge](#)[Click Photo to Enlarge](#)

The plugs on these units are of a twist lock design. In order for a secure and working connection to take place, the operator must insert the plug and twist until it locks into place. This ensures a safe seal is made before any sparks from electrical contact can take place. This unit includes an inline switch which allows operators to leave the cords plugged in and switch equipment on or off within the hazardous work area. This switch also allows operators to safely connect and disconnect equipment downline of the switch simply by turning off the switch before changing connections. This feature allows operators to change connections without having to leave the hazardous workspace to do so.

Inter-Compatibility: These cords will work with non-explosion proof standard receptacles (NEMA 5-15R, 5-20R, or 6-20R). The included plugs and receptacle are cross-interchangeable with Crouse Hind™ part# ENPENP5151 plugs and receptacles and Hubble-Killiark part# UGP-15231 ACCEPTOR® plugs and receptacles. Any equipment requiring these C-H or H-B plugs should work with these cords. Due to possible manufacturer changes we cannot guarantee interchangeability although we have made every effort to ensure cross compatibility correctness.

Suggested Applications: Manufacturing, Industrial, Warehouse, Lighting, Explosion Proof Light Fixtures, Grinders, Wet areas or Locations Where Combustible Dust is Present.

Specifications / Additional Information

RNT-EPEXC-100 Explosion Proof Extension Cord

Amp Rating: 15 amp Continuous Service

Dimensions: Cord length-100 Feet Plug-2.78"-L 1.75"-W

Configuration: 3 Pole 2 Wire

Suitable Plug Cable Diameter: .538" to .639"

Receptacle Specs:

Configuration: 3 Pole 2 Wire

Materials: Copper Free Aluminum

Dimensions: 3"-W X 5.69"-D X 6.13"-H

Mating Plugs: ****EPP-15A, EPP-20-A****

Finish: Epoxy Powder Coat

Switch Specs:

Configuration: Front Mounted Switch

Materials: Malleable Iron - Copper Free Aluminum

Dimensions: 3"-W X 4.69"-D X 5.38"-H

Finish: Triple-Coat—(1) zinc electroplate, (2) chromate, (3) epoxy powder coat
