LEDSB-QF12V

9-32VDC LED Strobe Light - Quad Flash - 100lb. Magnetic Grip Base - Amber

Product ID: 49646

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDSB-QF12V Flashing Strobe

Lamp Type: LED
Dimensions: 4.75"-High, 5" Diameter
Lamp Weight: 1lb. 8oz.
Wattage: 28W
Voltage: 9-32V DC
Amp Draw: 2.34A @ 12V DC - 2.05A @ 13.7V DC - 1.67A @ 24V DC
Wiring: 16` Coil Cord w/ Cigarette Plug In
Lighting Configuration: Strobing Quad-Flash
Mounting: Magnetic Mount in Rubber Base

Features

360° Visibility
Magnetic Mount
9-32VDC
Rubber Base Protection
Waterproof, Shock-Impact Resistant

Made in the USA

The Larson Electronics LEDSB-QF12V strobe beacon operates on 9-32VDC, contains 120 high powered diodes, and has a 100lb. magnetic grip base for temporary mounting applications. The magnet in this unit is covered by a rubber base to provide protection against scratches and damages to vehicle finishes.

This compact, high powered LED beacon contains an LED lamp assembly that produces 360° of brilliant light without the dark spots or uneveness of traditional incandescent beacon lights. This beacon is equipped with 120 high powered LEDs

and is capable of producing a brilliant flashing pattern that is visible in poor conditions.
This waterproof beacon has a rubber base with a 100 lbs grip magnet fitted inside for versatile and simple mounting. This mounting assembly provides secure attachement while protecting the paint and finish of vehicles from the scratching and dulling often caused by magneticaly mounted accessories. An amber polycarbonate lens protects the LED assembly and the housing is waterproof, shock resistant and built for for reliable and durable operation. This LED beacon is a quad flash strobe light which allows up to 4 strobes per second. The LED design of this unit provides the low power draw and long operational typical of LEDs and offers an excellent upgrade alternative to less powerful and less reliable incandescent strobe light beacons.
