

HALPRM-12V-BULB

7 watt LED Replacement Lamp for Larson Electronics HALPRM-12V Fixture

Product ID: 49652

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

7 watt LED Replacement Lamp for Larson Electronics HALPRM-12V Fixture

Color: 6000 Kelvin

Lumens: 1180

Acceptable temperature range: -20 - 40 C

Life hours: 50,000

Dimensions: 65mm OD (largest diameter) and 114mm tall

Materials: Aluminum base with polycarbonate cover

Buy American Compliant. Manufactured in TAA approved country.

The HALPRM-12V-BULB produces nearly 3 times the foot candles at 5 feet of a standard 100 watt rough service bulb. Combined with a "cool white" color output, this bulb is ideal for improving the light output of explosion proof and vapor proof hand lamps, drop lights and other standard incandescent lighting within industrial applications. This LED light bulb can provide additional safety measures and time savings, given that it does not require replacing for 50,000 hours. Since the LED bulb uses solid state technology, the vibration (dropping, etc) that degrades

conventional incandescent bulbs is not an issue with these LED bulbs.
