

PML-4

100W Magnetic Sealed Beam HIR Spotlight - Permanent Mount Base - 12 Million Candlepower - 750' Beam

Product ID: 506

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

PML-4 Permanent Mount Sealed Beam Spotlight

Lamp Type: Halogen Infrared Reflective (HIR) Sealed Beam

Dimensions: 3.5"D x 7.5"H, Lens Diameter: 6"

Weight: 1 lbs

Voltage: 12V DC

Watts: 100W

Lux: 2,750 @ 25'

Candlepower: 12 Million

Lamp Life Expectancy: 450 Hours

Spot Beam: 750'L

Lighting Configuration: Spotlight

Amps: 8.33 @ 12V DC

Wiring Options: 16' Cigarette Coil, 16' Cigarette, 21' Ring Terminals, 16' Battery Clamps, 16' Flying Leads

Housing Color: Black

Mounting: 4" x 4" Predrilled Permanent Mounting Plate

Features

Beam Reaches up to 750'

450 Hour Lamp Life

Bulb Coating Increases Light Output

UV & Saltwater Resistant Housing

Adjustable for Rotation and Elevation

Covenient Magnetic Base

Multiple Cord Choice Options

Made in the USA

The PML-4 from Larson Electronics is a 12 million candlepower sealed beam spotlight that enables the operator to control position of the light beam and permanently mount the light to any flat surface via the 4 inch square, predrilled mounting plate. These permanent mount lights are used as military

spotlights, searchlights, utility spotlights, roof mount spotlights, hunting lights, work lights, and linesman lights. The PML-4 also features a convenient handle mounted to the rear of the spotlight for easy positioning and aiming after the spotlight has been mounted to the desired surface.

The PML-4 is a 100 watt sealed beam spotlight that projects 2750 LUX at 25 feet and reaches distances of 750 feet. This sealed beam unit features a halogen infrared reflective (HIR) bulb. This type of halogen bulb achieves a greater light output while drawing the same wattage as traditional halogen bulbs. This greater light output is due to a special coating used on the bulb and capsule that allows visible light to pass through while reflecting infrared (IR) heat back onto the filament of the bulb. The specially designed halogen capsule of HIR lamps features a multi-layered thin film coating that allows visible light to pass through while reflecting infrared energy back to the filament. The reflected energy helps keep the filament within this spotlight at its optimum. The life of the lamp is rated at 450 hours and is the brightest halogen light of the ML series.

Please note that this sealed beam spotlight does not produce light in the infrared (IR) spectrum.

This permanent mount sealed beam spotlight enables the operator to control the rotation and elevation of the light beam via a convenient handle on the rear of the spotlight. As an ideal searchlight configuration, the operator positions the beam by changing the angle of the lamp. These lights will hold their position once the operator positions the beam. The operator can adjust the tension bolts to increase or lessen the "position holding" hinge depending on the amount of vibration in the environment. Interlocking aluminum and stainless steel u-brackets secure the elevation of the light beam once positioned. The lamp head is 6 inches in diameter and 3.5 inches deep. It weighs only a pound and is 7.5 inches tall. The housing of this unit is UV and salt water resistant. An on/off toggle switch is located on the back of the lamp housing.

16ft Coil Cord w/Cigarette Plug

21ft Cord with Ring Terminals

16ft Cord w/Battery Clamps

16ft Cord with Cigarette Plug

Wiring: Each light comes with a detachable 16 foot coil cord with cigarette plug. The cord is detached via a weatherproof, 2 pin Deutsch connector which easily and securely attaches and detaches the coil cord from the spotlight. Other cords, including 21 foot cords with ring terminals (C-21RT), 16 foot cord with spring battery clamps (alligator clips) (C-16BC) and a 16 foot straight cord with cigarette plug (C-16CP) are available. This light can be ordered in either 12 volt or 24 volt configuration, allowing it to be used with any vehicle or ATV equipped with a cigarette plug. Choose voltage below when ordering.

Mounting: This light has a permanent mount base. The base measures four inches square and is predrilled with a 0.25" hole in each corner for easy mounting to flat surfaces.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
