HML-5M-IR-850

Infrared Black Out Lens Cover for Larson Electronics and ControLights - HML-5M-IR-850

Product ID: 572

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Infrared Black Out Lens Cover for Larson Electronics and ControLights. This infrared blackout cover is commonly used with the HML-5M-CP 24 volt spotlight in the Escalation of Force Kit. 6 inch diameter lens is designed to fit on most of the Larson Electronics HML, ML, CML and MUL spotlights.
Machined aluminum cover with removable infrared lens. Fits all Larson Electronicss and ControLights.
Infrared lens is coated borosilicate (both sides) with 850nm cut off. Light energy transmission is 93%+
The standard lens bezel is removed and this covert infrared lens cover is twisted into place and secured by a single screw at the bottom. Once in place, all visible light is contained and only light above 850nm is projected.
