

LED-SSCB

Strobing Switch Control Box - For use with Larson Electronics LED Light Bars

Product ID: 64225

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in Texas

The control box features a 3 position toggle switch, for on, off and beaconing mode. Thus, an LED strobe light can be used for continuous on or flashing mode with a toggle switch change.

This control box is used in conjunction with Larson Electronics` s LEDLB, LEDP3W, LED10W, and LEDP10W series of visible, ultraviolet, and infrared LED lights to create a strobing LED light bar.
