HDFL-AA

Battery Powered Strobe Light - Hazard Flashing Lights with Magnetic Base - AMBER LENS - HDFL-AA

Product ID: 66

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

HDFL-AA Strobing Beacon

Made in the USA

The Larson Electronics HDFL-AA Heavy Duty Magnetic Mount Beacon is battery powered and provides 50 hours of operation on a single set of 4 AA batteries. This Beacon is 100% portable and provides a highly effective alternative to beacons that require wiring and special permanent mounting.

This beacon/warning/hazard light contains a lamp assembly that produces a brilliant signal that is visible over 1 mile away. This beacon is amber in color and is

100% portable, with a weighted base, 70 lbs grip magnetic mount, and battery operation that allows it to be operated wherever a powerful beacon is needed. The magnetic base can be attached to any ferrous surface, allowing it to be used as a tow hazard light, work warning light, strobe light, roadside hazard beacon and in other similar applications. With no need for wiring or external power sources, this light is ideal for applications where a signal light is needed on an occasional or temporary basis.

The HDFL-AA beacon is waterproof and resistant to shocks and vibrations. The durable housing and lens is designed to provide high strength and visibility as well as versatile placement. Operation of this unit is controlled by a simple rocker switch located on the side of the housing. Dimensions for this beacon are 4.5 inches in diameter by 8.5 inches high. This strobe is visible for for over 1 mile, and runs for 50 hours on a single set of 4 AA batteries. The durability, portability and high power of this LED beacon make it ideal for towing, trailers, security, work areas, roadside emergencies, warehouses, and anywhere a fast and simple beacon solution with plenty of power is needed.
