LML-7-CU12

12 Foot Telescoping Light Mast - Stationary Tower w/ Manual Crank Winch

Product ID: 68985

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

This unit is Made In USA - Manufactured in Texas

LML-7-CU12 Light Mast

Length: 7 feet - 12 feet
Weight: 120 lbs
Materials: Steel
Finish: Powder Coated - Gloss Blue or Black, or Galvanzied
Operation: (1) 1,000lbs Manual Winches, Electric Optional
Cable: 3/16" Galvanized Aircraft Cable
Mounting: 1/2" thick, 12"x12" Base Plate
Anchor Bolts: (4) 3/4" Bolts, not included
Dimensions: 3" OD (stage 1) - 2" OD (stage 2)
Shipping: Common Freight
Shipping Weight: 200 lbs
Options: Length- Mounting-Fixtures/ Call Us for Special Requirements

Larson Electronicss' telescoping steel light tower mast is designed to allow operators to quickly and safely deploy lighting and other electrical equipment in locations where this equipment must be elevated to heights up to 12` for effective light coverage. This adjustable and collapsible light mast can be extended to twelve feet and collapsed to seven feet and is locked into position with t-handle locking pins. The tower is constructed of square steel tubing with a lower section 6.5` in length and 3" by 3" by 1/8" thick and an upper section 6.5` and 2" by 2" by 1/8" thick with 1` overlap. The unit is extended and lowered using an included hand crank winch with 3/16" galvanized braided cable and equipped with a brake for fast and safe deployment.

The LM series of towers are powder coated with glossy blue finish for corrosion resistances and aesthetics standard, with optional black coating available. Galvanized coating for superior corrosion resistance optional. These light masts are typically mounted to trailers or other stable surfaces via a 12" by 12" by 1/2" thick square mounting base-plate which has been drilled to accept four 3/4" anchor bolts. A 44" wide and 2" by 2" by 1/4" thick mounting plate is attached to the upper section of the mast which provides a strong and stable platform for light fixtures and equipment.

This is a heavy duty unit designed for use in demanding conditions and for overall longevity in difficult construction environments with heavy duty steel construction for maximum durability. We make this lighting solution in the United States. Larson Electronics tower lights are designed for industrial, commercial, emergency response, and military applications where the operators are working in harsh, destructive environments and the operators income or mission success are dependent on dependable, durable lighting.
