WAL-C-3XM

Portable Light Tower - 3 X 1000 Watt Metal Halide Lights- Covers 140,000 SF - Extends to 12 feet

Product ID: 69037

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

WAL-C-3XM QuadPod Light Tower

Lamp Type: 3- Metal Halide
Lighting Configuration: Flood Pattern
Total Watts: 3000 watts
Total Lumens: 330,000
Voltage: 220/240 Volts 50/60Hz
Amps: 14
Wiring: 25 feet SOOW Cord - L6-30 Plug
Dimensions: Adjustable Tower 7 to 12 Feet Height

Mounting: Quadpod Tower, 7-12` Adjustable Height

Weight: Tower only 33 lbs, Total 170 Lbs

Quick Summary

3,000 Watts w/ Adjustable Heads
330,000 Lumen Light Assembly
140,000 Square Foot Coverage
Adjustable Tower 7 - 12 Feet
Wheeled Base
25 Foot Cord

Made in the USA

The WAL-C-3XM Quadpod Mini Light Tower from Larson Electronics produces 330,000 lumens of light capable of illuminating an area 140,000 square feet in size. This adjustable light tower is designed for rugged yet portable use and is ideal for use in demanding industrial and outdoor construction conditions.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO LIGHT MASTS OR LIGHT TOWERS

The WAL-C-3XM is a quadpod mounted mini light tower and provides 140,000 square feet of work area coverage with 330,000 lumens of light output. This portable light tower has a removable three lamp light head assembly mounted on top of a four leg steel quadpod equipped with 10 inch wheels for easy positioning of the unit from one area of the workspace to another. The light assembly on this unit produces a wide flood pattern of light that is ideal for illuminating large workspaces and jobsites. This light is designed for heavy duty use in demanding conditions including emergency services, mining, construction, marine, and industrial operations where durability and portability is important.

This portable light tower is comprised of a removable light assembly fitted with three metal halide lamps mounted atop a four leg tripod fabricated from heavy duty steel. This adjustable and collapsible quadpod tower can be extended to twelve feet and collapsed to seven feet and is locked into position with t-handle locking pins. The unit is extended and lowered using an included hand crank cable winch equipped with a brake for fast and safe deployment. Included solid wheels allow the operator to tilt the unit back and simply roll the entire assembly to a new location when fully deployed. The light fixture assembly can be removed by releasing the hand knob and sliding the lights and mounting bracket off of the center support while the legs can be collapsed, aiding in deployment, storage and transport. The lamps can be easily adjusted up, down, or from side to side independently of each other and locked into position for maximum coverage of the work area.

A base mounted control box containing the ballast is included and features a built in on/off switch, line circuit protection, and power indicator. This tower operates on 220/240 volts, 50/60 hz, 1 phase power and draws 14 amps @3000 watts on a 220 volt system. Included with this quadpod tower is 25 feet of SOOW cord with L6-30 plug which combined with the full adjustability of the light heads helps provide optimal coverage of the workspace. The easy to collapse design of this mini light tower allows users to easily break down and transport the unit, yet is durable enough for any industrial or commercial application.

This is a heavy duty unit designed for use in demanding conditions and for overall longevity in difficult construction environments with heavy duty steel construction for maximum durability. We make this lighting solution in the United States. Larson Electronics tower lights are designed for industrial, commercial, emergency response, and military applications where the operators are working in harsh, destructive environments and the operators income or mission success are dependent on dependable, durable lighting.
