RNT-EPL-TP-2X150LED-300

RENTAL 300 Watt Explosion Proof Quadpod Mount Light Tower - Dual 150 Watt LED Light Heads - 300ft

Product ID: 69920

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

RNT-EPL-TP-2X150LED-300 Explosion Proof Quadpod
UL Listing: United States
Dimensions: 16" Light heads - 4` to 12` Extendible Quadpod
Weight: 50 Lbs
Total Watts: 300 watts
Voltage: 120V-60hz 220V-50hz 240V-60hz 277V-60hz
LED Lamp Lumens: 20,000
LED Lamp Life Expectancy: 60,000 Hours
Mounting: Non Sparking Wheeled Aluminum Quadpod
Wiring: 300 feet SOOW Cord Explosion Proof Straight Blade Plug
Operating Temp Range: T4A Rated -40C to 60C
Beam Lux(per lamp): 8500@ 1 Meter 1250@ 3 Meters
Color Temp: 6000K
Rental Type: Monthly, Weekly, Daily

YOU CAN RENT THIS UNIT. Contact 1-800-369-6671 to make arrangements.
Rentals: In an effort to cut back on contracts and various other paper work, Larson Electronics processes rentals like purchases until the product is returned. (Rent to Own Rates) This means, we will charge the customer for the product total and credit back the difference once the fixture is returned. Weekly and Monthly terms are available. Customer must pay shipping to and from the destination. Please contact us at (903) 498-3363 for further information if required.

Subtract rental cost from total cost for the amount that will be credited back to customer upon return of product. Customer can choose to convert their rental to a purchase at any time during the rental period. When returned, deductions will also be made for shipping, repairs, and excessive cleaning, if needed.

Made in USA

This unit is for rentals.

The RNT-EPL-TP-2X150LED-300 Explosion Proof LED Light from Larson Electronics is rated Class 1 Division 1 Groups C and D and uses two 16 inch LED light heads to produce 20,000 lumens of light while drawing only 300 watts.

The RNT-EPL-TP-2X150LED-300 is a quadpod mounted explosion proof LED light and provides 15,000 square feet of work area coverage with 20,000 lumens of light output. This portable LED quadpod light has dual removable LED light heads measuring 16 inches in diameter each mounted on top of a two wheeled aluminum quadpod for easy positioning of the unit from one area of the workspace to another. The LED light head on this unit produces a wide flood pattern of light that is ideal for illuminating enclosed areas such as tanks and containers and is suitable for hazardous locations where flammable vapors, gases and dusts may be present.

This portable LED light quadpod is comprised of two removable 16 inch LED light heads mounted atop a solid rubber wheeled cart fabricated from non sparking aluminum. The non sparking, adjustable and collapsible quadpod can be extended to twelve feet and collapsed to four feet while wheels on the base enable the operator to tilt the unit back and simply roll the entire assembly to a new location. The hazardous location LED light fixtures can be removed by releasing the hand knob and sliding the light and mounting bracket off of the quadpod support while the legs can be collapsed, aiding in deployment, storage and transport. The lamp can be easily adjusted up, down or from side to side and locked into position. Included with this LED light quadpod is 300 feet of SOOW cord which combined with the 360 degrees of rotation and 90 degrees of tilt offered by the LED light head provides an effective alternative to often cumbersome explosion proof string lights.The LED light heads on this unit measures 16 inches in diameter each which allows it to fit through most standard size manholes and entry points. The LED light head can be removed from the tripod, the tripod collapsed, and the entire assembly passed through a manhole and reassembled once inside.This unit is also multi-voltage capable and can configured to operate on 120-277 volts 50/60 Hz. This lamp is T5 temperature rated and the LED light head retains 80% of its lumen output after 60,000 hours of use, far longer than incandescent or fluorescent lamps. The light head can be removed and used separately from the quadpod for added convenience.

Made in USA Quality

1. Approved Class 1 Div1-2 Class 2 Div I-2
2. Led lamp head requires no lamping and simply slides on the tripode and is locked into place with a hand tightend set screw.
3. Quadpod constructed of corrosion resistant aluminum.
4. No ballast box. No ballast to replace.

Superior LED Benefits

1. 50,000+ hour lifespan.
2. Can SAVE 50% or more on energy.
3. 100% recyclable.
4. No toxins-lead, mercury.
5. No UV light, infrared radiation or CO2 emissions.
6. Bright, even light maintains consistent color over time.

5. Extreme long life LEDs reduce maintenance and replacement costs.
6. Solid rubber tires. No flats or tube replacements.
7. 25 peel off mylar overspray lamp protectors ship with the unit.
8. 20,000 Lumens produced from only 300 watts.
9. Mercury free shock proof LED lamp light head.
7. Instant on/off – No flickering, delays or buzzing.
8. Very good color rendering.
9. Vibration/impact resistant.
10. Significantly cooler operation.
11. Less frequent outages, higher output improves workplace safety.
