

EXP-TCE-20A

Explosion proof enclosure with Love temperature control system

Product ID: 70972

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Explosion proof enclosure with Love temperature control system. The end user provides control voltage through the second NPT. The power flows to the Love controller and then to the appliance via the 20 amp explosion proof outlet. Temperature sensing cables supplied by end user are passed through another NPT and are terminated at the Love controller.
