

LEDWP-600-RGB-RC

Replacement Wireless Remote Control for 60 Watt RGB LED Remote Control Flood Light

Product ID: 72932

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Replacement Wireless Remote Control for 60 Watt RGB LED Remote Control Flood Light
The remote control is a wireless control unit with a working distance of 25+ feet. This remote control capability is ideal for operators who install the LED flood lights in hard to reach or elevated locations, allowing them to change the color and operating modes of the lamp quickly and easily. The remote can be used to control multiple lamps, and on/off control can be remotely managed as well. Multiple units can be synchronized together by holding the "on" button for 10 seconds, allowing operators to sync color changes and light configurations across multiple lamps.

Batteries not included.

Frequently Asked Questions (FAQ)
