

LED-ILS-2W

Dual Inline On/Off Toggle Switch for LED Lights - AC or DC - For Larson Electronics LED Lights

Product ID: 73104

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Dual Inline On/Off Toggle Switch for LED Lights - AC or DC - For Larson Electronics LED Lights

This dual toggle switch is installed in between the light and the power source, allowing operators to quickly and easily power their LED lights on or off. This unit is designed for operators with dual input LED lights, such as visible/infrared or visible/colored LED light bars with an individual switch for each type of LEDs. The input and output wiring whips are terminated in a male and female water tight three pin Deutsch connector.

Frequently Asked Questions (FAQ)

LED-ILS-2W

Product ID: 73104

Harmonized System (HS) Code: 9405.41.84.10
