9200-S-M

Mini Strobe Light Bar with Magnetic Base

Product ID: 813

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in the USA

The 9200-S-M from Larson Electronics is a Mini Strobe Light Bar thata is multi-voltage 12-24 V DC and offers an effective and portable beacon or signaling light solution in a durable and compact unit.

This compact, mini LED light bar encloses two strobe beacons within a clear polycarbonate lens enclosure for durability and protection from the elements. Four magnets, each with 45 lb of grip, provide secure mounting to vehicles, boats, equipment and machinery. A 16 foot cord ending in a standard cigarette plug provides easy connection to standard plug sockets in automobiles and other

vehicles so equipped.
This LED beacon has an 8.6 amp draw on 12 volts and a 4.3 amp draw on 24 volts, produces a highly visible 10.5 joules flash per strobe, and is rated Class 1 signifying the brightest intensity possible. This strobe light is offered in amber, amber/white, red, or white configurations. The cigarette plug on this unit is also equipped with an integrated on/off switch on the back of the plug so you don`t need to remove the plug from the socket to turn the strobe bar on or off. This mini light bar is ideal for a wide variety of applications including but not limited to: security, equipment, utilities, emergency services and industrial operations.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
