HUL-LEDP1X10W-RND-C

10 Watt LED Handheld Spotlight - 16' Coil Cord w/ Cigarette Plug - Red, Blue, Green, Amber Lens

Product ID: 105952

Image: HUL-LEDP1X10W-RND-C

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

HUL-LEDP1X10W-RND-C Spotlight
Lamp Type: LED
Dimensions: 10"-H x 3.07"-W x 3.8"-D
Weight: 2 Lbs
Voltage: 12-32 VDC
Amps: 0.84 @ 12V DC - 0.42 @ 24V DC
Watts: 10 watts
LED Drive %: 90%
Total Lumens: 860
Luminous Efficacy: 86 Lm/W
Lamp Life: 50,000+ Hours
Color Temp: 6000k
LED light Color: Red, Blue, Green, Amber, White
Spot Beam: 650` Length
Lighting Configuration: 10° Spot, 20° Wide Spot, 40° Medium Flood or 60° Flood
Optic Purity: 90%
Ambient Operating Temp Range: -40°C to 80°C
IP Rating: IP68 Waterproof
Materials: Aluminum Housing, Polycarbonate Lens
Housing Color: Black or White
Mounting: Handheld Portable
Wiring: 16ft Coil Cord w/Cigarette Plug, 21ft Cord with Ring Terminals, 16ft Cord w/Battery Clamps, 16ft Cord with Cigarette Plug

Internal LED Driver Features
Fast average current control
Programmable off-time switching
Linear dimming input
PWM dimming input
Short Protection w/ Skip Mode
Pin-compatible with the HV9910B

Buy American Compliant

The Larson Electronics HUL-LEDP1X10W-RND-C Spotlight is a rugged and effective LED spotlight designed to provide users with a powerful, durable, and easy to use source of reliable light. This spotlight has a 10 watt LED assembly which produces a light beam approximately 650' long. Multiple color choices available, including red and green for hunting, amber for fog penetration, blue for snow and artic conditions, and a clear diffused lamp for a wide spread floodlight. This handheld spotlight includes a detachable 16 foot coil cord with cigarette plug for easy connection to vehicle and equipment power sources.

This durable and weatherproof spotlight is ruggedly designed to withstand heavy duty use and includes a 16 foot coil cord and cigarette plug adapter to allow connection to any vehicle or ATV equipped with a cigarette plug. This light contains a single 10 watt LED emitter paired with a precision aluminum reflector and impact and scratch resistant lens. This beam is strong enough to allow operators to read signs, license plates, addresses and other similar markings at the far end of its total range.

This handheld spotlight is equipped with a snap-on lens to provide colored or diffused light output. Options include red, blue, green, amber, or clear lenses. Additional lenses (LEDP1X10WRE-RND-LENS) can be purchased seperately, allowing operators to quickly change the color of the light in the field. Please select lens type below.

- Red lenses are best suited for dust. The red color pierces through the dust and improves visibility where other colored light sources may provide low to zero visibility. Red lenses are also used for hunting applications, where predators at night are less sensitive to light in the red end of the light spectrum.
- Blue lenses are best suited for snow and arctic conditions. Operators will experience less glare and reflection from the snow, and will be more noticeable to oncoming traffic.
- Green lenses are extremly popular for hunting applications. Similar to the red lens, the animals are less spooked by green light than visible white light. Green light output is commonly used when domestic animals may be coming into the call, to better differential the target animal before taking the shot. The green light output is brighter to the human eye than red, making it the first choice when hunting darker prey, such as wild hogs.
- Amber lenses are best suited for fog and water environments. The amber color penetrates the fog better than higher color temperatures, reducing glare and increasing visibility under high fog conditions.
- Clear lenses diffuse the light without changing the color. In the spot configuration, the clear lens is used to protect the face of the light fixture.

This spotlight is built for durability and comfort with an impact resistant housing, an ergonomically designed 5 inch tall polycarbonate handle that matches the contours of your hand, and a light head that can be adjusted vertically. The 5.5 inch diameter lamp and reflector assembly is protected by a polycarbonate lens that is sealed against water and dust to provide an IP68 rating and weatherproof protection.

Power options include 12-24 volt DC for use with most common vehicle, boat or ATV electrical systems. The light draws 0.84 amps @ 12V and 0.42 @ 24V. This spotlight is a powerful and rugged design ideal for use in hunting, utility, emergency, industrial/commercial and military/law enforcement applications.

Durability-Convenience: The HUL-LEDP10W Spotlight is constructed of impact resistant materials including a nylon housing and polycarbonate handle. The lamp assembly contains an aluminum reflector and borosilicate hardened glass lens. The lamp assembly is sealed against water and dust and the entire unit is IP68 rated waterproof to 3 meters.

16ft Coil Cord w/Cigarette Plug

21ft Cord with Ring Terminals

16ft Cord w/Battery Clamps

16ft Cord with Cigarette Plug

Power: Each HUL-LEDP10W Spotlight comes with a detachable 16 foot coil cord with cigarette plug. The cord is detached via a weatherproof, 2 pin Deutsch connector which easily and securely attaches and detaches the coil cord from the spotlight. Other cords, including 21 foot cords with ring terminals (C-21RT), 16 foot cord with spring battery clamps (alligator clips) (C-16BC) and a 16 foot straight cord with cigarette plug (C-16CP) are available. This light on 11-32V DC, including 12 volt or 24 volt DC, allowing it to be used with any vehicle or ATV equipped with a cigarette plug. Choose voltage below when ordering.

Versatility: The entire unit weighs only 1.2 lbs. The light head is mounted to the handle with an adjustable hinge that allows the head to be adjusted vertically. The five inch tall handle is ergonomically designed to fit the contours of your hand for a comfortable grip. This unit is ideal for hunting as well as military, security and law enforcement use and any application that requires an extremely durable and effective source of portable illumination.

Lighting Configuration: The HUL-LEDP1X10W-RND-CR has several beam configurations that the operator can choose from to better suite their applaication; 10° Spot, 20° Wide Sopt, 40° Medium Flood and a 60° Flood.

Material Safety Data Sheet

To Whom It May Concern,

The Larson Electronics LLC LEDLB, LED3W, LED5W, LED10W, LEDP, and LEDxxWRE industrial line of LED light bars and light fixtures without emergency battery backup are considered "ARTICLES" under 29 CFR 1910-1200, the OSHA Hazard Communication Standard, and do not require a Material Safety Data Sheet (MSDS). This document does not expire.

Articles are specifically exempt from the regulations of this standard. OSHA defines an article as follows:

1910-1200(c) – Article means a manufactured item other than a fluid or particle:

i. Which is formed to a specific shape or design during manufacture;
ii. Which has end use function(s) dependent in whole or in part upon its shape or design during end use; and
iii. Which under normal conditions does not release more than very small quantities.

Regards,

Ray Smith
Larson Electronics, LLC.

Certification

Manufacturer: Larson Electronics LLC
Address: 9419 US-HWY 175
Kemp, Texas 75143

Declare the following equipment conforms to the standard(s) as listed:

Model: LEDLB, LED3W, LED5W, LED10W, LEDP, and LEDxxWRE Series
Description: LED Light Bars

Evaluated Listings:

CE: DIRECTIVE 2014/35/EU - LOW VOLTAGE DIRECTIVE
CE: DIRECTIVE 2014/30/EU - EMC DIRECTIVE
CE: Regulation (EC) No 1907/2006 - REACH REGULATION
CE: DIRECTIVE 2015/863/EU - ROHS DIRECTIVE

The LEDLB, LED3W, LED5W, LED10W, LEDP, and LEDxxWRE series complies with the essential protection requirements of the European Parliament of the Council Directive for Low Voltage Directive, EMC Directive, REACH Regulation, and RoHS Directive. This certification applies to all specimens manufactured in accordance to the manufacture's drawings.

CE: DIRECTIVE 2015/863/EU - ROHS DIRECTIVE

This is to certify that products offered by Larson Electronics LLC comply with the Reduction of Hazardous Substances (RoHS) directives. Directive 2002/95/EC became effective on 1 July 2006. It restricts the use of six substances in the manufacture of electrical and electronic equipment. This directive was revised in June 2011 and is now referred to as directive 2011/65/EU. Directive 2015/863/EU amending Annex II to Directive 2011/65/EU announced plans to add four substances from 22 July 2019.

We hereby certify that the equipment specified above conforms to the Directive(s) by containing less of the restricted substances than the stated limits.

CE: Regulation (EC) No 1907/2006 - REACH REGULATION

This letter establishes the opinion of Larson Electronics LLC regarding the status, under the current European Union ("EU") Regulations on Registration, Evaluation, Authorization, and Restriction of Chemical Substances ("REACH").

REACH does not apply to manufactured products which are referred to as "completed articles". Substances (chemicals) are subject to REACH registration, NOT products.

In addition, Articles are exempt from the REACH requirements if (a) the Article does not contain a substance of very high concern or candidate substance in an amount exceeding 0.1% weight by weight, and (b) if substances present in the Article in excess of 1 ton per year per importer are not expected nor intended to be released.

Based on communication with our raw material suppliers, we conclude that to the best of our knowledge our products requiring REACH compliance do not contain any of the currently listed SVHC in concentrations of 0.1% or above.

Accordingly, we foresee no registration or pre-registration requirement for the products we supply.
